

UNCLE SAM IN NEW ROLE AS U.S. COAL MAN

Government Machinery for
Emergency Distribution of
Coal Goes into Operation
on Monday

RECOVERY IN PRODUCTION
IS REPORTED TO BE SLOW

Central Committee Receiving
Requests for Coal from
States

WASHINGTON, D. C.—The govern-
ment machinery for emergency
distribution of coal swung into gear
Monday as the central committee
here, with Henry B. Spencer, federal
fuel distributor, as administrative
head, began active functioning under
the program devised to supply coal to
the industries and localities where it
is most needed and to maintain fair
price levels at the mines. The cen-
tral control organization was rapidly
being perfected, it was said, with the
organization of an adequate staff to
handle the rush of reports and orders
expected to flow through Washington.

As the distribution program went
into effect, slow recovery in produc-
tion was shown in reports of the ge-
ological survey for the week ending
Saturday, the estimated total being
2,500,000 tons as compared with 2,
700,000 tons the week previous. Pro-
duction of anthracite was said to re-
main at "practically zero."

States Ask Coal

Requests for coal from governors of
states already have begun to come
into the federal fuel distribution com-
mittee, Secretary Hoover stated. The
states, he said, asked particularly for
fuel for their public utilities.

Fuel Distributor Spencer was at
work Monday perfecting the organi-
zation of regional committees in the
producing mine fields and it was ex-
pected that orders could be forwarded
to all districts within 48 hours.

Maintenance of the federal emer-
gency coal control organization Mr.
Hoover asserted, probably will be ne-
cessary for at least three months after
the coal strike is ended. It will be
necessary, he explained, to provide
for the needs of some sections such
as New England, where there are
practically no stocks of coal and the
northwest.

Whether an appropriation will be
necessary to defray the expenses of
the emergency organization has not
yet been determined, Mr. Hoover
said, adding that the question could
be decided by the time the house reas-
sembles on August 15.

THEODORE CLARK IS ARRESTED ON CHARGE OF ABANDONING WIFE

Theodore Clark, whose wife Ethel
obtained a divorce in Judge Hibber's
court Sunday morning, was arrested
on charges of abandoning his wife
and two children. He was arrested
before Judge Hibber Monday morn-
ing at 81,000 and an examination
set for Thursday. Clark was arrested
on a warrant issued by Judge
Hibber after he had heard the testi-
mony of Mrs. Clark, who alleged that
her husband had left her in destitute
circumstances.

WEATHER RECORD

For La Crosse and vicinity—Fair to-
night and Tuesday. Not much change
in temperature.

For Wisconsin—Fair tonight and
Tuesday. Not much change in tem-
perature.

For Minnesota—Fair tonight and
Tuesday. Not much change in tem-
perature.

For Iowa—Fair tonight and Tuesday.
Not much change in temperature.

CHECK-UP PLACES NUMBER OF CASUALTIES IN HERRIN MINE MASSACRE AT OVER SEVENTY

CHICAGO.—By the Associated Press.—A check-up on the casualties in
the Herrin, Ill., mine massacre made by various labor agencies and
coal associations interested shows that of the 72 men in the mine at the
time it was attacked by the union forces, 64 are either dead, wounded or
missing, while the total casualties on both sides numbered more than 70.

The tabulation follows:

Non-union miners and guards in mine—72.
Bodies of non-union men officially buried—19.
Non-union men wounded—34.
Non-union men missing, believed to be dead—11.
Total casualties on non-union side—64.
Union men killed in fighting—2.
Union men who died from wounds—1.
Union men wounded (estimated)—no official figures being avail-
able—4 to 8.
Total casualties on union side—7 to 15.
Total casualties on both sides—71 to 79.

The figures show that only eight of the 72 men in the mine are known
to have escaped unhurt. Of the wounded non-union men six still are in
hospitals—two in Herrin and four in Chicago.

ALLIES TO MAINTAIN NEUTRALITY OF CITY OF CONSTANTINOPLE

Will Permit no Advance Upon
City by Greek Troops Say
Allied Military Chiefs

ALLIES ALSO TO OPPOSE MOVE
FOR AUTONOMY IN SMYRNA

Will Declare Null Greek Procla-
mation of Self-rule

CONSTANTINOPLE.—By the Asso-
ciated Press.—British troops
Monday were being transferred
across the Bosphorus from the Asiatic
to the European side, crossing
constantinople on their way to the
Tchatalia line, thirty miles west of
the city to reinforce the French
troops.

The allied military staff has cate-
gorically announced that under no
circumstances will it permit a Greek
advance upon Constantinople, being
prepared to oppose by force any at-
tempt at violation of the neutrality
of the city, whether by Turks or
Greeks.

Concentration of Greek forces is
continuing.

Will Resist Greek Advance

LONDON.—By the Associated
Press.—After a diplomatic exchange
of views, a complete accord it was
officially stated Monday, has been
reached between Great Britain and
France as to the measure of resistance
to be used to conserve the neu-
trality of Constantinople.

The opinion expressed in Downing
street is that a military demonstra-
tion by the Greeks against Constani-
tinople is in the highest degree im-
probable.

The whole question of the Greco-
Turkish conflict is likely to form a
subject of discussion between Prime
Minister Lloyd George and Premier
Poincare of France on the occasion
of the latter's visit to London the
date of which is still indefinite. The
British adhere to the opinion that the
time of his coming will be largely
dependent upon the solution of the
Italian cabinet crisis. The second or
even the third week in August now is
regarded as the earliest period proba-
ble for the opening of the conversa-
tions.

Autonomy for Smyrna

SMYRNA.—By the Associated
Press.—A proclamation announcing
the establishment of a regime of self-
government for the regions in Asia
Minor occupied by the Greeks was
issued Monday by M. Stergiadis,
Greek high commissioner. The pro-
clamation states that the new regime
is in conformity with the principles
recognized by the entente allies dur-
ing the world war and decrees of
the League of Nations regarding the
Greek protectorate over the speci-
fied territories.

Allies to Oppose It

PARIS.—By the Associated Press.—
The entente powers probably will
declare null and void the Greek pro-
clamation of autonomy for Smyrna
it was said Monday in French offi-
cial circles. The Athens government
may first be asked to withdraw the
proclamation, which, if it refuses,
will be declared valueless.

Feat was expressed in French
circles that the massing of Greek
troops in Thrace might provoke un-
desirable incidents although there ap-
pears to be no worry as to the out-
come of the Greek proposal to oc-
cupy Constantinople.

LENROOT LOSES IN FIGHT ON TARIFF RATE ON BLANKETS

WASHINGTON.—Tariff duties on
woolen blankets ranging from 20
cents per pound and 30 percent ad-
valorem to 40 cents per pound and 40
percent ad valorem were approved
Monday by the senate by a vote of
60 to 21. The Underwood low rate
was 25 percent ad valorem.

The amendment of Senator Len-
root, Wisconsin, to reduce the
protective duty by approximately
the amount which was pending
when the senate recessed Saturday
was rejected 20 to 27. Nine republi-
cans supported it and two democrats
Broussard and Ransdell voted against
it.

STATE COAL MEN CALLED TO MEET AT THE CAPITAL

Conference of Leading Whole-
sale Dealers Planned to
Consider Wisconsin
Situation

COMMITTEE TO CONTROL PRICE
AND PRIORITY IN THE STATE

Fuel Administration Named by
Governor Goes into Ac-
tion Monday

ST. PAUL, Minn.—Declaring
that the coal situation in the
northwest is more threatening
than at any time previous, Gov.
J. A. O. Preus, Monday called a
conference of executives of
Iowa, Wisconsin and North and
South Dakota to meet here Aug-
ust 10 to discuss the fuel prob-
lem.

MADISON, Wis.—By the Associated
Press.—A call for a conference
here Wednesday of leading wholesale
coal dealers in Wisconsin was issued
by the fuel administration appoint-
ed by the governor at the request of
Secretary Hoover.

The decision to call the wholesale
coal dealers in conference was made
at a meeting of the administration
here Monday morning.

Gathering of data as to the amount
of coal held by the wholesalers
and the best methods of distributing
coal is expected to be discussed at the
meeting. Definite action within a
week in fixing of state coal prices
and determining priority rights was
promised by the administration.

Committee at Work

The committee consisting of J. B.
Borden, representing the state board
of public affairs; L. E. Gettle, rep-
resenting the railroad commission; Ed-
ward Norman, representing the mar-
keting department; John J. Mack,
state chief engineer, and several
other officers were present in the
conference which lasted until noon.

The fuel administration will meet
again Monday afternoon to discuss
the situation.

Work of gathering data as to the
amount of coal now in the state, the
amount normally used and where the
chief points of consumption are lo-
cated, constituted the activities of
the fuel administration commission.
Throughout the state retail and
wholesale coal dealers, public util-
ities companies, creameries and fac-
tories will be queried by the com-
mission for thorough outlines of local
fuel situations, it was announced.

Control Prices and Priority

The state commission will control
price fixing and priority rights within
the state in all cases except that of
railroads, while the federal fuel ad-
ministration will confine itself to fix-
ing the prices of coal at the mine and
to determining priority rights in in-
terstate commerce, a member of the
commission said.

Miss Irma Hochstein, formerly a
secretary with the wartime federal
fuel administration volunteered to-
day to turn over to the state com-
mission valuable records and data
concerning methods of management
of the old board. Her services have
been accepted by the board and the
entire list of large consumers of coal
which the government obtained dur-
ing the war will form the basis of a
list which is being tabulated at the
capital building now.

Coal Men Can't Fill Contracts

MILWAUKEE, Wis.—A local fuel
company Monday notified the central
board of purchasers that it would be
unable to continue to fulfill its con-
tracts to supply coal for the city hall
and garbage plant. At the same time
another company with a contract for
supplying coal to the water pumping
stations and other large municipal in-
stitutions, requested the board to
grant relief from specifications on the
quality of coal supplied. One dealer
said if every coal company in the city
fulfilled the obligations of contracts,
there would not be a ton of coal left
in the city.

MAN KILLED BY TRAIN

WATSAU, Wis.—The mutilated
body of George Williams, 51, town of
Weston, was found along the tracks
of the Chicago, Milwaukee & St.
Paul, near here, Monday morning.
Death is thought to be accidental.

LAST DAY TO CAST PRIMARY VOTE FOR C OF C DIRECTORS

Monday is the last day for cast-
ing the primary nomination ballot
for the board of directors of the
Chamber of Commerce. All bal-
lots must be in the office of the
Chamber of Commerce by 7:30
Monday evening to be counted.
While a great many ballots have
already been cast, it is believed
that a few are yet out.

Results of the primary will be
announced Tuesday.

RESIGNED PREMIER TO ORGANIZE NEW CABINET IN ITALY

ROME.—By the Associated Press.—
Luigi Einaudi, who with his cabinet
resigned on July 19, Monday was en-
trusted by King Victor Emmanuel
with the task of forming a new min-
istry.

HARDING ASSURED OF SUCCESS OF PLANS FOR RAILWAY PEACE

President Reported to Have had Promises of Sup-
port from Both the Union Leader and Head
of Rail Executives; Cuyler Denies it;
Hooper in Washington to Con-
fer With Harding

WASHINGTON.—By the Associated Press.—President Harding was
said today by close personal friends and advisers to have received assur-
ances from Chairman Cuyler of the Association of Railway Executives vice
president Atterbury of the Pennsylvania railroad, and B. M. Jewell, head of
the striking shopmen's organizations, that they would support his proposals
for immediate ending of the strike.

These assurances were understood to be the basis of the president's
hope for successful termination of his arbitration efforts. They have been
the subject of discussion it was re-
ported, between the president and his
immediate advisers, including some
members of the senate.

HARRY BOLAND IS SHOT IN DUBLIN RESISTED ARREST

Former Representative of Dail
Eireann in Serious Condi-
tion at Hospital

DUM-DUM BULLETS REPORTED
IN POSSESSION OF IRREGULARS

Ten Republican Soldiers Killed
in Saturday Fighting

BERLIN.—By the Associated Press.—
France has rejected Germany's
request for a reduction in the month-
ly payments on the debts contracted
by German nationals with allied citi-
zens prior to the world war.

The French note gives the German
government ten days in which to sig-
nify that full payments will be con-
tinued in accordance with the London
agreement and the decision of the al-
lied clearing house offices; otherwise
certain fixed measures will be applied
automatically.

A serious view of the French reply
is taken here, especially as the note
was dispatched on the eve of the con-
ference of allied premiers in London.
Germany has asked that the clearing
house payments be reduced from 2,
000,000 pounds to 500,000 pounds,
monthly.

Draft Reparations Report

PARIS.—By the Associated Press.—
The allied committee on guarantees
was still at work Monday on its report
regarding the German economic and
financial situation which it investi-
gated in its recent visit to Germany,
and the recommendations to be sub-
mitted to the reparations commission,
based on the committee's findings.
The report and recommendations, it
is expected now, will not be pre-
sented to the commission before Wednes-
day.

TRIES TO DRIVE UP BLUFF; FARMHAND IS ARRESTED; FINED \$50

William Doerre Arrested by
Sheriff Miller After He Fails
to Negotiate Hill

William Doerre, farmhand employ-
ed by Ed Freehoff, Coon Valley farm-
er, tried to drive up the bluff on Mon-
mouth Coulee road between Stephan's
and Leide's place, Sunday night. His
Ford couldn't quite make the top of
the grade, although it "done nobly."
By the time Sheriff Miller reached
the scene of the Alpine climbing
stunt Doerre wasn't quite sure what
it was all about. However, Miller col-
lected Doerre together and took him
to the county jail. Monday morning
he pleaded guilty to a charge of driv-
ing his auto while intoxicated and was
fined \$50 and costs, which he paid.
When Doerre went to view his car
Monday he found three of the tires
had been stolen and auto tools valued
at \$25 also among the missing.

Nearly 2 Millions
Due State Today
From Corporations

MILWAUKEE, Wis.—Revenue
from Wisconsin corporations and in-
dustries estimated at \$1,350,000 is
due the internal revenue department
Monday. The revenue is derived
from the capital stock and occupa-
tional taxes, both of which are due
by midnight.

Revenue officials estimated that
\$1,500,000 will be paid by corpora-
tions subject to a levy on their cap-
ital stock and the \$350,000 will be
forthcoming from the industries within
the scope of the occupational tax.
Penalty for non-payment is 25 per-
cent of the tax, but few violations are
expected by officials.

MILWAUKEE REPAIR SHOPS ARE CHANGED INTO A BUNKHOUSE

The old car repair shops in the
Milwaukee yards have been trans-
formed into a bunk house for the
housing of men working in the
shops and on the car repair track at
the north side yards. There are ac-
commodations for about twenty men
in the place it is said.

Quiet prevails at both the Milwau-
kee and Burlington shops as the
strikers entered upon their fifth week
of enforced idleness. Picketing still
continues in force, but no disorders
of any kind have as yet been re-
ported.

There are small crews at work in
both shops, but most of the workers
are from outside the city. At the
Burlington shops there are five La
Crosse men on the job, and three
more in the car repair department.
With these exceptions the strikers
still are "sitting tight."

RICH HAUL IS MADE IN RAIDS ON CAFES AT ATLANTIC CITY

ATLANTIC CITY, N. J.—Fifteen
cafes along the boardwalk and other
sections of the city were raided Sun-
day by a flying squadron of proba-
tion agents. Liquors valued at
\$10,000 were seized.

Many of the places were thronged
with fashionably clad men and wo-
men and the raids created consterna-
tion.

DECLARES PRESS OF STATE IS EXERTING POWERFUL INFLUENCE

Task of Newspaper Man Trying to Serve Community Not Easy Says Agriculture Official

MADISON, Wis.—The Daily and Weekly newspapers in the state are becoming a powerful influence in their communities is a statement of A. W. Hopkins of the department of agriculture.

In Wisconsin, as in most states, the typical country newspaper is published in a town or village of from a few hundred people to several thousand population. Of the 374 weekly published in and serving our state, 86 are issued in places ranging from 2,000 to 5,000; 166 in villages of less than 1,000; 82 in centers of from 1,000 to 2,000; 24 in towns of 5,000 to 10,000; 12 in cities of from 10,000 to 50,000 and two in our large industrial center. We are told that this distribution is quite similar to that of the more than 10,000 country weeklies of America.

Of our 45 dailies, five are published in cities of 50,000 or more; eight in places of from 25,000 to 50,000; 15 in towns of 10,000 to 25,000; 14 in centers of from 5,000 to 10,000 and three serve communities of under 5,000 population. We are told that for the country at large, there are published more than 2,250 dailies. Of these less than 300 are published in towns under 5,000 and something like 800 in places of 10,000 or less.

"The task of the newspaper man," says Mr. Hopkins, "who would serve town and country is not an easy one. Both contain elements which create rivalries and even conflicts of interest. The age-long antagonism between town people and farm folk may be fanned or stilled as the newspaper editor elects. It is but natural that merchants should look with suspicion upon any attempt upon the part of the farmer to engage in co-operative buying and selling. It is equally natural that the farmer should be resentful occasionally of marketing methods which seem to be controlled in the town."

"Then, too, owing to the fact that neither side interested itself in knowing the other, we find an indifference sometimes amounting to antagonism between the two groups. But many of all of these difficulties may be overcome by the resourcefulness of the country editor. What he does will determine in no small measure what rural America is to be. Shall we have communities of strong capable men and women with initiative and independence working co-operatively for the betterment of the individual and the communities, or shall we stimulate social and business differences?"

LEVEE SPECIALS DEFEAT WILES IN PRACTICE GAME

Slow Exhibition to Specials Who Collect 14 Hits to Wile Brothers' 9

Levy Specials defeated Wile Bros. Sunday morning on the High School diamond by a score of 14 to 6. The game throughout was slow. Levy Specials collected 14 hits to their opponents' 9. Moss for the Wile Bros. was knocked out of the box and was relieved by Dunham, but the Specials continued to hit the ball. Marquardt, pitcher for the Specials, did splendid work, striking out 8 men.

Tonight the Levy Specials will meet the La Crosse News at Cope Land Park in a league game. Lassig will hurl for the Specials.

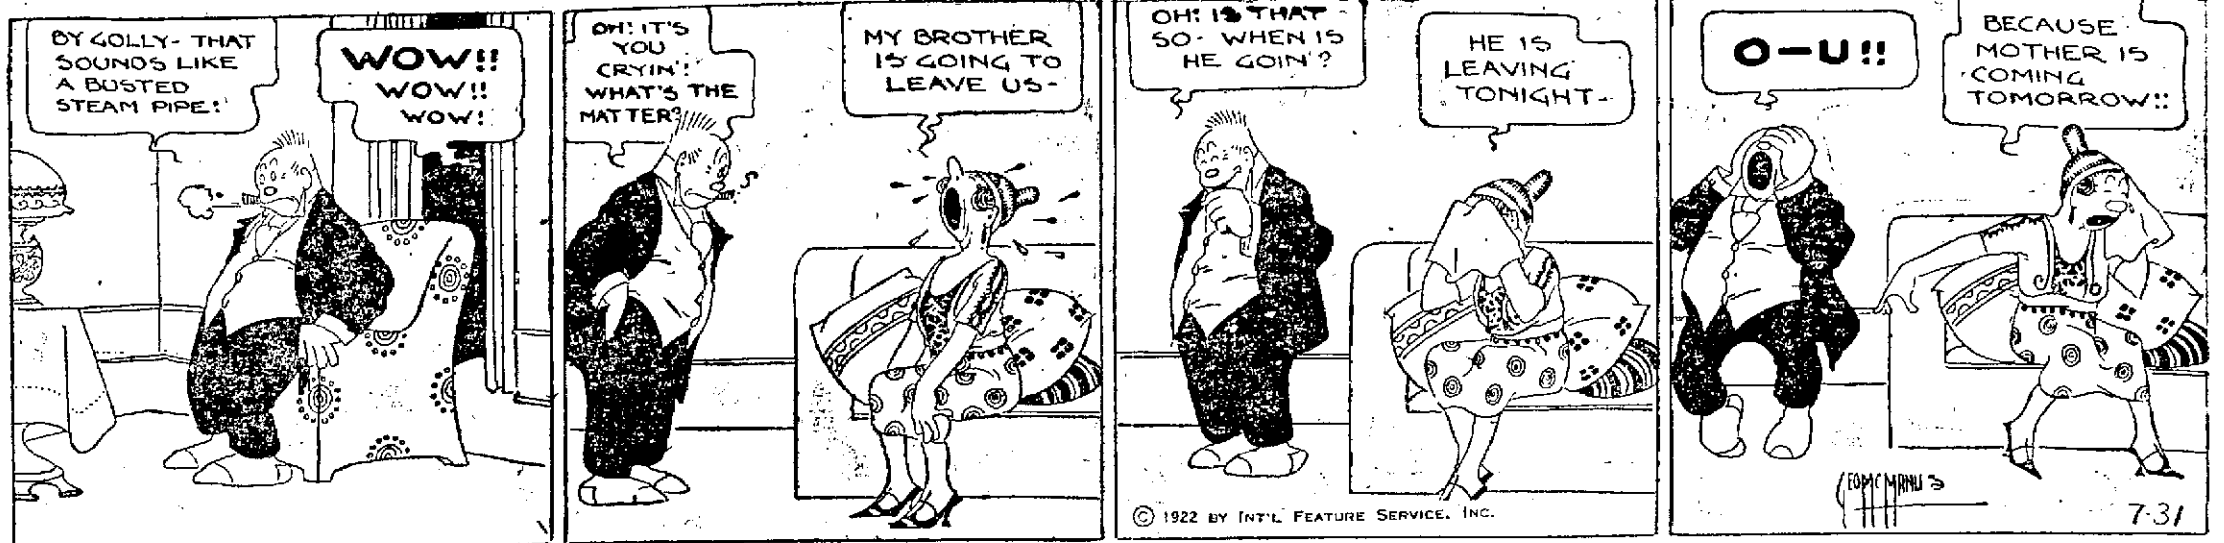

Batteries: Levy Specials, Marquardt and Otto; Wile Bros. Moss, Dunham, and Bellinger.

EIGHTY-ONE ENTER JUNIOR GOLF MEET

CHICAGO.—Eighty-one entrants for the Western Junior Golf championship at Olympia fields Wednesday, Thursday and Friday were announced today by W. W. Harless, secretary.

Among the out of town nominations is John A. Russell of Milwaukee.

BRINGING UP FATHER

HERE'S LONG AND SHORT OF THE BIG CIRCUS PEOPLE

Giant With Troupe World's Largest Man; Mr. and Mrs. Doll, the Tiniest

HERE is the long and short of it with the Ringling Brothers and Barnum & Bailey's circus.

The giant is George Auger, the world's largest man, and the midgers are Mr. and Mrs. Doll, who are among its tiniest people. Auger's chief hobbies are growing bigger and playing the saxophone. He likewise enjoys walking and thinks nothing of covering fifteen miles in a single hike. Needless to say he does this in about a third of the steps that would have to be taken by the average sized man. As for the Dolls it required twelve of their steps to make one of the strides measured off by their friend George.

This is a season of contrasts on the Ringling Brothers' program. These include Albert and Agat, the biggest of all living elephants, in contrast with Sammy, a dwarf pachyderm. "Tiny Toddlers," the first baby hippopotamus to go on tour in America, affords a remarkable contrast with its ponderous parent. "Mighty Martha," Long Tom, almost nineteen feet high and leader of the giraffe herd, is the loftiest animal in the aggregation and Jitney, a mite of a baby monkey, is the smallest.

The show itself is the biggest in history. There are exactly one hundred railroad cars traveling in five sections. Were these placed end to end they would form a train more than one-third of a mile long. One entire section is given over to the thousand animals of the menagerie and the hundred additional trained ones that are exhibited in steel girded

ISLANDS IN NORTHERN LAKE ARE HELD TO BE PROPERTY OF STATE

MADISON, Wis.—Islands in the Big Crooked Lake in northern Wisconsin belong to the state of Wisconsin until declared to be property of private owners by a court of competent jurisdiction, J. E. Messerschmidt, assistant attorney general, informed the state conservation commission Monday.

The owner of property on the Big

Crooked Lake claimed that his property meandered around the islands in such a way that they were considered his property, and for that reason had not been surveyed by the U. S. government. Mr. Messerschmidt is of the opinion that the act of congress of 1912 declaring all unsurveyed islands to be the property of the state, includes the property in question.

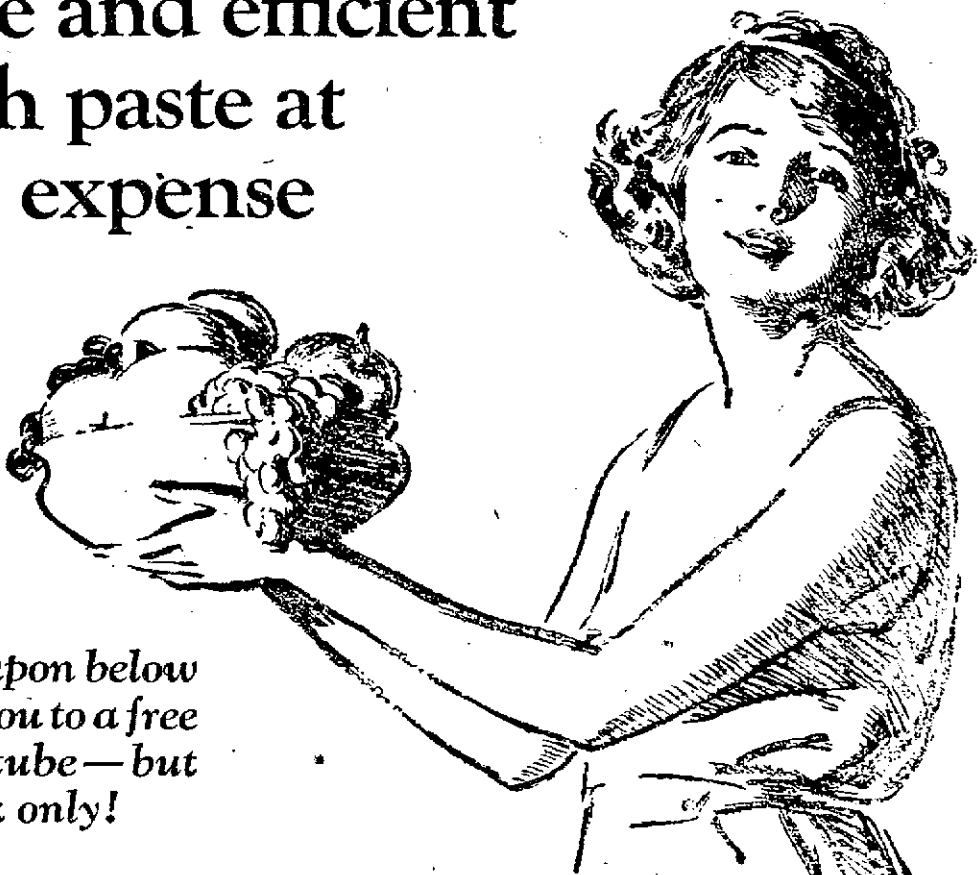

The Egypt of America Cortes touched first in Yucatan in 1519 on his way to conquer Mexico. One of his followers who undertook the subjugation of the peninsula in

1527 found the wonderful ruined temples and palaces of the old Maya cities whose beauties and wonders have earned for Yucatan the title "The Egypt of America."

The potato is a native of China and Peru.

Try this new really safe and efficient tooth paste at our expense

—the coupon below entitles you to a free 10-cent tube—but this week only!

Be sure to call for your free tube

By merely filling out the coupon in this advertisement and taking it to any one of the druggists listed below you may receive a full-sized 10-cent tube of Listerine Tooth Paste—a very superior dentifrice made for you by the makers of Listerine.

It makes tooth-brushing a pleasure

Give this original fruit acid dentifrice a thorough, conscientious trial. Note what a clean, fresh feeling it leaves about the mouth and teeth. And see how much brighter and whiter your teeth will gleam than they ever did before.

"It makes your mouth water"

When you brush your teeth with Listerine Tooth Paste you will at once notice how it makes your mouth water. This is because it contains the wholesome acid elements of four delicious fruits—apple, orange, grapes and grapefruit.

These mild fruit acids stimulate an extra flow of tooth-protecting alkaline saliva which Nature provides to fight conditions that start tooth decay.

Soapy dentifrices cannot do this because they are necessarily alkaline instead of acid. They discourage Nature in her effort to preserve tooth-health and lead you to unnecessary discomfort, unsightly teeth and needless dental bills.

And a safe cleansing agent

Besides its mild fruit acids together with the healing oils that have made Listerine itself so popular and safe an antiseptic for the last half century, Listerine Tooth Paste contains exactly the correct polishing ingredient. It is a non-gritty cleanser—just hard enough to remove the daily accumulations of tartar; but not so hard as to injure the tooth enamel. You know this paste is doing its work—yet doing it safely.

Redeem your coupon this week!

Be sure to hand your druggist the coupon below this week. This offer is in effect only one week.

Secure your free full-sized 10-cent tube and enjoy the pleasure and satisfaction of really clean teeth—teeth made clean both scientifically and safely.

We are sure this trial will convince

you and that thereafter you will want no other tooth paste than Listerine Tooth Paste—the original fruit acid dentifrice.

Be sure to call for your free tube this week!

Listerine Tooth Paste

—the paste that's right

Because it contains mild fruit acids to stimulate Nature's flow of alkaline saliva to combat tooth decay;
because it contains the correct polishing agent—hard enough to remove tartar but not hard enough to injure tooth enamel. Watch how it whitens and brightens your teeth;
because it contains the healing antiseptic essential oils contained in Listerine—

at the price that's right

ROOF COLLAPSES UNDER WEIGHT OF BASEBALL FANS

CHICAGO, Ill., July 30.—More than 175 men, women and children who had climbed on the roof of a hotel at Humboldt and Wisconsin streets today to watch a ball game were forced to climb down and hurriedly escape from death or serious injury when the structure collapsed under their weight.

One Mrs. Hilmar Anderson, 13 years old, Rosemary and Montrose, were among the victims of the collapse.

The crowd decided it would make a good grandstand. Nearly 200 of them climbed it. As the numbers increased the roof sagged noticeably.

U. S. TO CONTINUE ITS RELIEF WORK IN SOVIET RUSSIA

WASHINGTON, American relief work in Soviet Russia will continue for three or four months at least, Secretary Hoover announced Monday upon his return from New York where he met Sunday with Col. Wm. N. Haskell, head of the American relief association in Russia.

The Hoover problem confronting American relief work, Mr. Hoover declared, was the question of displaced children, there being about 1,000,000 children who have been separated from their families as a result of the famine and who now are under the care of the American relief administration.

RETURNS TO HUSBAND AND THEN KILLS HIM AS HE BEATS HER

CHICAGO, Mrs. Gladys Kirkland, after being separated from her husband, Fred Kirkland, for a week, agreed to his plan for a reconciliation Monday and returned to his home. Fifteen minutes later she shot him to death. She told the police he had begun beating her as soon as she entered the home. Mrs. Kirkland is 26 years old and her husband was 27.

THEIR FIRST JAIL VISIT

PRISONERS IN HOUSE OF CORRECTION STRIKE FOR GREATER LIBERTY

More than 200 inmates refuse to work until demands are met

MILWAUKEE, Wis.—A second strike, with 225 prisoners refusing to work, began at the house of correction here Monday.

The prisoners, who struck two weeks ago for new potatoes instead of old, issued an ultimatum Sunday demanding the freedom of the cell house and other privileges, declaring that if their demands are not met they will refuse to work.

Prisoners employed on the farm usually start out at 7:50 each morning. When the overseers opened the cell room doors, with the command, "All out," practically every male prisoner kept his bunk.

William H. Mowson, superintendent, estimated that the number of men remaining in the cell rooms was 225. There are 464 prisoners in the house of correction, but many of them are federal prisoners, men and women who are not required to work on the farm.

CHINA'S PARLIAMENT TO MEET FOR FIRST TIME IN FIVE YEARS

PEKING.—By The Associated Press.—China's parliament is expected to convene here Tuesday, its first meeting since 1917. Upon its opening to proceed with the resumed China program, the plans and hopes of President Li Yuan-Hung.

Monday there was uncertainty whether sufficient members would be available to form a quorum, but members who have arrived at Peking asserted they would continue in session until able to function. Both the president of the senate and speaker of the house of representatives have declared their determination to restore parliamentary government in China.

Problems facing parliament include a depleted national treasury, discord among the provinces and hostility of the militarists who do not want their troops disbanded.

LIGHTS CANDLE TO PRAY; CRIPPLE IS BURNED TO DEATH

MILWAUKEE, Wis.—A helpless cripple, Mrs. Ellen Toner, 72, was burned fatally Sunday when her night gown caught fire from the flying head of a candle, before her tortured screams aroused others in the rooming house where she lived. She was a devout Catholic. Intending to pray before going to sleep, again, she reached a match to light a prayer candle. The head of the match flew off and landed on her, setting fire to her night gown.

No one was awakened by the burning woman's cries for some minutes. When persons did arrive she had fainted from pain. Mrs. Toner died after being removed to a hospital.

MISS ZELLA HALL AND DR. JORRIS MARRIED THURSDAY

THE MARRIAGE of Dr. Albert U. Jorris, 1831 Cass street, and Miss Zella Hall, daughter of Mr. and Mrs. F. H. Hall of Northfield, Minn., is announced to have taken place Thursday afternoon, July 27th, at the summer home of the bride's parents at Lake Washington, Minn. Dr. and Mrs. Jorris will be at home after September the first.

MR. AND MRS. LOUIS Zaiser, 1641 Wood street, announce the engagement of their daughter, Kathryn Madelle, to Louis R. Zimmerman of Denver, Colorado. The marriage will take place in September at Denver, where Mr. Zimmerman is building a home.

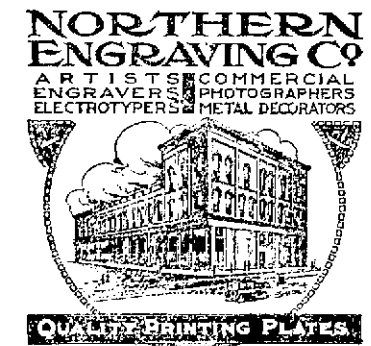

MR. AND MRS. IRVING M. Tutur and little daughter, Marilyn, of Chicago, arrived Sunday at the home of Mr. Tutur's parents, Mr. and Mrs. Morris E. Tutur. Mr. Tutur returns to Milwaukee Monday night and then goes to New York, while Mrs. Tutur and daughter will remain for several weeks.

DR. AND MRS. EDWIN C. Dixon are at home after a stay of three weeks at Lake Chetek. The Misses Frances and Jennie Dixon also spent two weeks at the lake following two weeks at Kilbourn and the Dells, arriving home with Dr. and Mrs. Dixon.

THE MEETING of the Official Board of the First Methodist church announced for Monday night, has been postponed to Wednesday night at 8 o'clock.

AMONG THE enthusiastic swimmers at Camp Ahiti at Lake Sylvia, Minn., are the Misses Mary King, daughter of Mr. and Mrs. E. M. King, 1402 King street, Miss Mary Finch, daughter of Mrs. L. J. Finch, 435 South Fourth street, and Mrs. A. C. Wolfe, 1540 Madison street, and Miss Elizabeth Felber, daughter of Mr. and Mrs. J. J. Felber of 135 South Nineteenth street. They are also studying for the Red Cross Life-saving Test which will be given at Camp Ahiti July 29th by Miss Ruth Sampson of Minneapolis.

AMONG THE PERSONS to make

A Good Risk

For an hour the defendant's lawyer had exhorted the jury at the top of his lungs, basing his plea on the ancient adage that it is better that ninety-nine guilty persons should escape rather than that a single innocent one should suffer. Then it came the turn of the court to make the charge.

"You gentlemen," began His Honor dully, "may attach to the defense's statement what weight you wish, but it is the opinion of this court that the ninety-nine escaped long ago."

NELSONS FIGHT UPHILL BATTLE TO FINALLY WIN

Battling Rally in Eighth Sends Over Three Runs to Claim the Game, 10 to 8

"DUCKY" SMITH COMES BACK IN GOOD GAME; GETS HOMER

Pitching Exhibition is Toss up, Each Allows 12 Hits

FORCED to fight an uphill battle in the late innings of the game, the Nelson baseball club took its stride in the eighth inning of the exhibition yesterday to wrest victory from the Houston aggregation 10 to 8.

In virtually every inning the locals had to take the lead but on each occasion until the eighth they fell short in the rally. The score was:

***** CALEDONIA THURSDAY: *****

***** TRIM BLAIR SUNDAY *****

The Nelsons have scheduled Caledonia for a twilight attraction here on Thursday. Big Ben and Jager will oppose each other.

Considerable interest is added to the game due to the fact that Caledonia yesterday defeated the Blair aggregation, 1 to 0, at Caledonia. It was the first defeat for Blair after thirteen consecutive wins.

***** In the third and seventh innings and three scores in the eighth when Gribin was touched pretty hard but Sank's ribs far enough ahead to claim the contest.

***** Smith Gets Homer *****

"Ducky" Smith received an ovation on his return to the game and played fans going out a home run in the fifth inning. It was a clean and powerful drive to left center and the speedy second baseman had plenty of time to get the ball down but the swing was relayed in from down by the swings. He also accomplished a hit of clever work in the second inning.

***** BERANEK SUSTAINS *****

***** FRACTURED SKULL *****

"Cully" Beranek, veteran outfielder of the Nelsons, sustained a fracture of his skull and a ruptured ear drum in the accident in which he was struck over the right temple by a pitched ball yesterday, Dr. Flynn reported today. While it was first thought that he was not seriously injured, Beranek suffered great pain later in the evening, causing his removal to the St. Francis hospital about 8 o'clock. An X-ray revealed a fracture an inch and a half long in his skull. Dr. Flynn stated that his right ear drum was ruptured.

***** rushing to cover first as Well came *****

out to field a wide grounder. The man was out and that was all. It was the same play in which "Ducky" was injured in the Montague game.

"Cully" Beranek was retired from the game in the fourth inning when he was hit on the right ear by a pitched ball. "Cully" led his teammates when they took the field at the beginning of the fifth and was bound to hold down his post but Manager Sank saw fit to give him a deserving rest.

***** 12 Hits Each *****

The pitching exhibition, with the exception of Schmitz's big majority of strike outs, was about a toss up. Twelve hits was the toll of both hurlers and neither seemed able to light a up in the pinches.

Fans framed the Nelsons to win the tilt yesterday but it was just a question when they would do it. Well's drive in the eighth inning, scoring Smith and Johnson did the trick. "Buck" made three bases on the drive when C. Peterson attempted a one-handed stab within each reach.

BOSTON NATIONALS RECEIVE FRED TONEY AND OTHERS IN TRADE FOR HUGH McQUILLAN

NEW YORK.—Following the trade early last week of Joe Dugan and Elmer Smith of the Boston Americans to the New York Yankees, the New York National League club announced Sunday that it has secured the services of Hugh McQuillan, promising young pitcher from the Boston Nationals.

In trade for McQuillan Boston received Fred Toney, a veteran with a great record, Larry Benton, a young pitcher sent to the Memphis club by the Giants, and Walter Houlahan, a left hander from Middlebury college in Vermont. Boston is said to have received a large sum of money also.

Toney got his start in life with a pile of rocks and another of tin cans in the mountains of Tennessee.

When Fred was a boy he and his fellows played a game called "drap em daid." This consisted of placing

tin cans, or bottles, when such things could be had, on sticks stuck on the mountainside and throwing rocks at them.

Every fellow had a certain number of "heaves" and to the winner all other competitors gave so many rounds of rifle ammunition.

They say Fred kept his whole family supplied with cartridges.

So, one day, a "furriner" from Winchester, Kentucky, visited up Fred's way. He saw Fred play "drap em daid" and hurried back to town with the story.

So Fred went to Winchester, started throwing baseballs over the place, and was given a job.

And now, down in Fred's home country whenever they get hold of a newspaper telling that he's won a game they say:

"He drapped 'em daid."

WINONA LEGIONS TRIM MONTAGUES IN 11 INNINGS

Both Teams Score in Ninth Frame; McCauley Whiffs 16 Legion Batsmen

THE Winona Legion defeated the Montagues in eleven innings, 2 to 1, Sunday afternoon in what Winona fans called one of the fastest games seen there in years. Both teams were unable to score until the ninth, when each tallied one, the Legions pushing over the winning score in the eleventh as a result of Wally getting on base on Charley Weigant's error.

McCauley struck out sixteen of the Legion men and tightened in the pinches to cut off scores time and again. He allowed eleven hits, while Morrisetti was touched for 13. Each club had twelve men left on bases.

The Montagues scored in the ninth inning when Moore started off with a single. Providence, new right fielder, sacrificed and McCauley fled out. Fitzke grounded to Shortstop Evans, who fumbled and Moore scored. C. Weigant was safe on an error and Franzini fled out. The Legions retaliated in their half. Evans and Wally singled in succession. Paulis and Smith struck out.

In the eleventh, Evans fled out and Wally was safe on C. Weigant's error. Paulis singled, advancing Wally who scored on Smith's single.

MALLEY LOSES TO MARTIN, MADISON PRO, ON SATURDAY

Madison Golfers Overwhelm Locals in Match Play at Capital City

MADISON, Wis.—Madison golfers, members of the Maple Bluff Golf club overwhelmed La Crosse here Saturday afternoon when the River City group, more than 40 strong, took the short end of an 85 to 27 score. This avenges the defeat of the Madison aggregation at La Crosse some time ago when the Capital City golfers lost by a margin of 6 points. According to golfers of both cities, the defeat at La Crosse was really a win for Madison because of the small margin.

Madison's win Saturday was not by a small margin, as the score indicates, but was a decisive victory over the River City club.

Guy Martin, Madison professional, defeated Jack Malley, La Crosse professional, 5 up and 4 to go.

Emil Niemeyer, La Crosse golfer, had the lowest score of the day. He shot a card of 77 for 18 holes. His partner, V. A. C. Henmon, Madison, was second low man with a card of 78 for the 18 holes. Max Mason, also of Madison, had a score of 80.

40,000 WATCH SOX TAME YANKS, 6-5

Dugan's Wild Throw Starts Hose on Way to Winning Rally Sunday

ROMMEL HIT FREELY; TIGS TRIM MACKS, 7-2

Erickson Blows up and Tribe Trims Griffs, 11 to 3

CHICAGO.—Close to 40,000 persons saw the Chicago White Sox defeat the New York Yankees on Sunday, 6 to 5. The locals won the game by bunching their hits with a smart play by Ray Schalk, when the defense of the visitors cracked.

Chicago scored four runs in the fourth. After one out, Falk singled and Sheely went to second when Dugan threw wild to first, Falk going to third. Schalk then struck at a wild pitch for his third strike and reached first, while Falk scored. Blankenship followed with a single to left sending Sheely home and went to second when Ruth fumbled.

Johnson advanced Blankenship with a sacrifice and Mullen sent him home with a hit.

Sacred Blankenship pitched a steady game until the seventh when he weakened and was replaced by Leverette in the eighth who checked the rush of the Yankees. Score: New York 000 000 220-5 Chicago 100 401 008-6

Batteries: Murray and Schang; Blankenship, Leverette and Schalk.

PROSPERITY LOOMS AS PROSPECT FOR FARMERS THIS YEAR

NEW TYPE CATTLE THIEF OPERATES IN STATE HERDS

Agricultural Experiment Station Workers Discover Dangerous Disease

JOHNE'S DISEASE FOUND IN SOME WISCONSIN HERDS

Rules Given for Prevention of Dread Ailment

A hitherto little known cattle thief is robbing the herds of Wisconsin. Detective work done by R. A. Beach and E. G. Hastings of the Agricultural Experiment station shows that unless measures are taken at once to suppress the disease, it will prove a grave menace to the cattle industry.

The old sort of cattle thief made familiar to all by the Wild West type of movie was comparatively easy to detect and to dispose of. The thief which our modern scientific sleuth have been trailing is invisible and works imperceptibly but with deadly results.

In certain Wisconsin herds this affection, which is known as Johne's disease has been shadowed for a number of years. Annual losses of from 2 per cent to 12 per cent have resulted.

The losses are bound to increase and the depredations will spread to other herds unless the breeders and veterinarians of the state unite to put an end to the menace.

Johne's disease is somewhat similar to tuberculosis. It attacks by preference the highest producing cows in a herd. And before its presence is detected it may spread from the infected animal to others.

Infected animals gradually dry up in milk, they become thin and scrawny so that they can be sold only as canners. If not so disposed of, ultimately they die of the disease.

To protect a herd against this disease two things are essential—(1) a test of the herd by a competent veterinarian. The veterinarian, by the use of a product called Johnin can detect infected animals which must be eliminated from the herd.

(2) Care must be exercised in introducing new animals into the herd to see that they bring no infection with them. To make certain of this the health of the whole herd from which they come should be certified.

At the present time the disease is not widespread in Wisconsin, and preventive measures taken now would prevent great losses in future years. The importance of such action is shown by conditions in Denmark today. Investigators there say that the existence of the whole of one breed of cattle is dependent upon the ability of the Danish cattleman to eliminate disease from their herds.

MORMON COULEE CLUB TO STAGE PLAY AT BANGOR

The Mormon Coulee club will present the farm drama, "Back to the Farm," at the Majestic theater in Bangor, on Saturday evening, August 12th, under the immediate direction of Mr. S. P. Markie. The Mormon Coulee dramatic club is composed of farmers and their families, and the play they present is an intensely interesting drama of present day rural life. The play is interspersed with music and vaudeville.

The people of Bangor and vicinity will welcome this opportunity to meet and greet our neighbors from the Town of Shelby, and a crowded house is assured the company upon their appearance.

CLOVER MILDEW COMMON, CANNOT BE CONTROLLED

What can you do to stop or control the clover mildew?

"Nothing I'm afraid," replied R. E. Vaughan, expert plant pathologist at the Bangor college of agriculture. "There is no control but be sure to cure the hay carefully and watch out about feeding it to horses as it is apt to be mussy. It is not poisonous." Clover mildew is common all over the state this year, reports Vaughan. It is also common in many parts of the Mississippi valley. It is probably due to the wet weather this spring.

PECULIAR MISHAP OVERTAKES NORTH BEND COW, KILLED

A North Bend man owned a cow that was not satisfied until she was killed. The correspondent to the Black River Falls Journal tells of the tragic end of bossy:

J. D. Patterson lost a cow last week. It was a peculiar accident. There is a water pipe in Patterson's front yard. The pipe connects to the main pipe about eight feet underground, and the opening is about three feet square, with cemented sides and a board cover. The cow stepped upon the cover in such a way that the boards spread and the cow dropped head first to the bottom of the hole. The water by this time had been above the cow's head several minutes and she was dead. The same cow was struck by a heavy touring car this summer. She was carried several rods and it looked as though her time had come then.

WEST SALEM DISTRICT VISITED BY CHAMBER OF COMMERCE PIG CLUB MEMBERS WEDNESDAY

Five farms in the West Salem district were visited by the merchant members of the Chamber of Commerce Pig Club last Wednesday afternoon. The day was ideal for the outing and the eleven merchants who made the trip thoroughly enjoyed the afternoon's outing.

The first place stopped at was the farm of Henry Oertel, in Smith's Coulee. Edward, the small son of Henry Oertel, displayed one of the finest specimens of pigs that has yet been seen by the club members. It is of the Chester White breed and is doing splendidly with the good care it is getting.

The next stop was but a short distance down the road, at the farm of Frank Leibi, whose son Wenzel won a pig in the essay contest. It was too bad to get Wenzel out of the "old swimming hole," but he seemed glad to greet his visitors. His pig, also

a Chester White, is in fine condition and bids fair to be a prize winner. Wuron Wehrs was not at home when the visitors stopped at his place but the pig was found in a pen in the orchard. It too, as is the case with all those seen, is developing rapidly and shows the results of scientific care.

Charles Van Zandt is proud of his pig, and shows it. He has perhaps the largest pig that is to be seen among those of the 1922 winners. He intends to enter the pig in the fair at La Crosse in September. Besides the pig, Charles has a fine looking high grade calf of which he is also justly proud.

The last farm visited Wednesday was that of Henry Schild. This time it was a girl who met the visitors. Violet Schild can claim equality with any of the boys in the club when it comes to raising pigs. She intends to exhibit her pig at the fair, and has high hopes of it being of blue ribbon quality.

ENTER THE TRIBUNE BIG CROP CONTEST

Attention, you with the bumper crops.

The Tribune is going to award four prizes, of five dollars each, to those bringing in the largest specimen of certain farm products before fair time. Just what those products are to be has not yet been definitely decided. It is certain, however, that one five dollar award will be given for the longest corn stalk, regardless of variety or the number of ears, which is brought into the office before the opening of the fair.

Watch this column for further announcements next week.

MANY WISCONSIN FARMERS EXHIBIT FOR FIRST TIME

Fairs this Season to See Initial Exhibition of Much Fine Livestock

Many Wisconsin breeders are preparing to make their first showing of live stock at fairs this season. It is a healthy situation and reflects the return of better times for the man who has gone ahead with his live stock improvement.

The benefits from exhibiting live stock listed by R. S. Hulce of the Animal Husbandry Staff of the University of Wisconsin are these: "It advertises a breed—in fact, is one of the best means of promoting breed interest.

"It advertises the community or county from which the exhibitor comes."

"It advertises the live stock of the individual breeders. Providing good stock is shown, this means of advertising has long been recognized by many as one of the most effective."

"A county or state fair that has good live stock exhibits becomes an educational medium for the dissemination of up-to-date information. The general public, as well as the exhibitors, often learn a great deal."

"Breed type gradually undergoes changes. The popular type of yesterday in many instances is not the type of today. There is no better way of keeping up with the procession than to be a part of it; the more an exhibitor misses much that the exhibitor sees."

"The establishment of special classes for animals exhibited by members of boys and girls' clubs is one of the best moves made by fair associations."

Hulce believes that many county fairs need their premium lists revised. The premium lists as stated in the state fair catalogues may well serve as a guide in making changes.

PROSECUTOR ASKS TRAITOR'S DEATH FOR RUSS REBELS

MOSCOW—By The Associated Press.—Death by shooting of thirty of the revolutionists on trial here, including four women, was demanded by the prosecutor, M. Krylenko, in summarizing the evidence against the defendants. The prisoners shouted their defiance in answer to his accusations.

He said there had been shown, link by link, the connections of the defendants with the various plots charged to them, including the assassination of M. Volodarsky and Uritsky, soviet leaders in Petrograd, in 1918, and attempts to kill Premier Lenin and War Minister Trotsky.

Being without counsel the principal defendants will make addresses in their own behalf.

CHICAGO MAN DIES AT THE AGE OF 108

CHICAGO, Ill.—Samuel Degrossky, aged 108, died here Sunday. "Eat carefully, drink moderately, let smoking and chewing alone; above all be faithful to your religion," was the advice he was fond of offering to his children, forty-five grandchildren and twenty-seven great-grandchildren.

FAMOUS NURSE DIES CHICAGO.—Sister Mary Rita O'Shea, Superintendent of Mercy Hospital and nationally known as an authority on standardization of infirmaries, died here Sunday. She had been ill two years.

Tobacco Pool Finance Plans Up At Meeting

Warehousing and financing plans for the Northern Wisconsin tobacco pool will be worked out at a meeting of the state department of markers with bankers and nominated directors of the pool at Madison, August 7 and 8. At that time a well known promoter of co-operative associations will go over the financial provisions of the Wisconsin association.

It is proposed that the Kentucky Tobacco pool plan be followed as closely as possible in financing the project in this state. L. G. Foster, deputy commissioner of markets, says. Bankers and the future officers of the pool are to be invited to attend the meetings for mapping out a finance plan in order that they may understand what is proposed to handle the Wisconsin tobacco crop this year.

Over \$5,000,000 will be needed from the bankers as an initial loan to set the organization under way and provide for a system of warehouses in the growing sections.

Town meetings are now being held in the four growing districts of the state to elect representatives to district meetings September 15 when directors of the tobacco pool will be named.

INDICATIONS THAT 1922 IMMIGRATION WILL NOT BE HEAVY

Reports from railroad companies throughout the northwest to the Immigration Division showing immigrant cars unloaded along their lines indicate that 1922 will not be a big year in land settlement, according to G. M. Householder, of the Wisconsin Department of Agriculture. One road having mileage in Michigan, Minnesota and the Dakotas reports 71 immigrant cars arriving at points on their systems last month. It is interesting to note that of the 71 new settlers Wisconsin received 58, North Dakota 10, South Dakota 1, Minnesota 10 and Michigan 1. The immigrant cars originated in New York, Nebraska, Indiana, Ohio, Illinois and Iowa.

ADVENT OF GRECIAN SPELLS DOOM TO THE BOBBED HAIR FLAPPER

ST. LOUIS, Mo.—A Grecian maiden, with classically bound hair, long draping and flowing robes and sandals, like footwear—such will be the stylish girl who will replace the present "flapper," in the opinion of some of the delegates who are attending the three-day convention of the National Hairdressers' association, opened here Monday.

The hairdress will naturally have to fit the flowing sleeves of the straight-line frocks, which have been designed by Dame Fashion for the present time, declared one of the delegates, and in accordance with that edict bobbed hair will eventually have to go.

NEW CELL ROOM TO BE BUILT AT STATE'S PRISON

MADISON, Wis.—Plans for a new cell room at the state penitentiary have just been completed and the architect has been directed to continue his work on drawing of the cell block, according to the announcement of the state board of control on Monday. Only a little construction work is being done at the different charitable institutions. The largest piece of work under way is a power and heating station which cost \$38,843, at the southern home for feeble minded at Union Grove.

CONTINENTAL STORE OWNER, SAM'L STERN DIES IN CHICAGO

Samuel Stern, president of the Stern-Ulman Company of Chicago, owners of the Continental Clothing Company of this city, died Saturday, according to word received in La Crosse Sunday. H. N. Boehm, manager of the local store, left Sunday night to attend the funeral, which was held Monday. The store was closed all day Monday as a mark of respect to Mr. Stern.

CANVASS SHOWS GOOD OUTLOOK FOR MID WEST

Farmers Emerging from Slump of Despair; all Optimistic as to Result of Crops this Season

LOWER PRICES AND BENEFITS FROM LEGISLATION CAUSE JOY

Growth of Co-operative Enterprises and Farm Bureau Movements to Help

(By JAMES B. HOLM)

The American farmer is coming back.

He is beginning to emerge from the tremendous slough of despair and suffering, in which he has floundered for the past 20 months. His head is once more above water and he feels that the crisis is past. He believes better times are coming, although almost imperceptibly slow.

The farmer himself says this. In a 2500-mile trip through the heart of agricultural America I have learned the true conditions from the man with the hoe and the man behind the plow. I have talked with the "dirt farmer," the rich and poor landlord and tenant, with the country banker and the county farm bureau agent.

I have learned first-hand of the tremendous struggle the farmer has had to make both ends meet during the past year and a half. Literally, the farmer has suffered not only from want of the comforts, but of the necessities of life, that America and the world might eat.

I was told how the value of his land shot downward with a thud. I was told how many who had tilled the soil for a little gain, I learned how prices of crops and produce faded away; how many were gouged and swindled by profiteers; how the farmer was suffering for lack of the comforts of life; how the young men left the farm for the city and how crops were lost for want of help to harvest them; how the farmer's morale was shot to pieces.

For a year or more he felt himself a beaten man for whom the future held but little. Now his courage has returned. He has faced about with the light of a new spirit in his eye.

The practical American farmer is not claiming that prosperity is here. Far from it. But he believes it is on the way, slowly coming nearer every day.

ALL Optimistic

I heard everywhere, "We lost money last year. This year we expect to break even or perhaps make a little money. Things look better."

All this is of tremendous importance to the country. Farming is by far the largest of all the nation's activities. They call it the basic business or industry of the country and maintain there can be no lasting prosperity until the farmer is prosperous and contented. With the farmer prosperous and spending his money, the whole country should then experience better times.

In this swing through the "garden of America," I learned of men who had virtually worked for nothing in the past year, if a fair rate of interest be allowed on their investment. Or, if a very small wage be allowed to them as workers, then their farm as a business, lost money.

I was told of men, supposedly wealthy through inheritance of rich farms, clear of debt, who had to borrow money enough to pay their taxes. They couldn't make enough from their farms.

Families were found whose cash income would not exceed \$200 for the year. In addition, of course, to rent and a part of their food.

These do not mean extreme cases, such as the shiftless, the ignorant and the unfortunate. With hard work, good crop returns and good luck, still there was no money to be made.

War-time prices for his crops and war-time prices for his machinery, groceries, clothing, etc., were a bad combination.

Said an Indiana farmer: "It's bad enough when a man has no work and therefore no pay. But it's worse yet when you put in full time and get no pay for what you do."

Usually Secretive

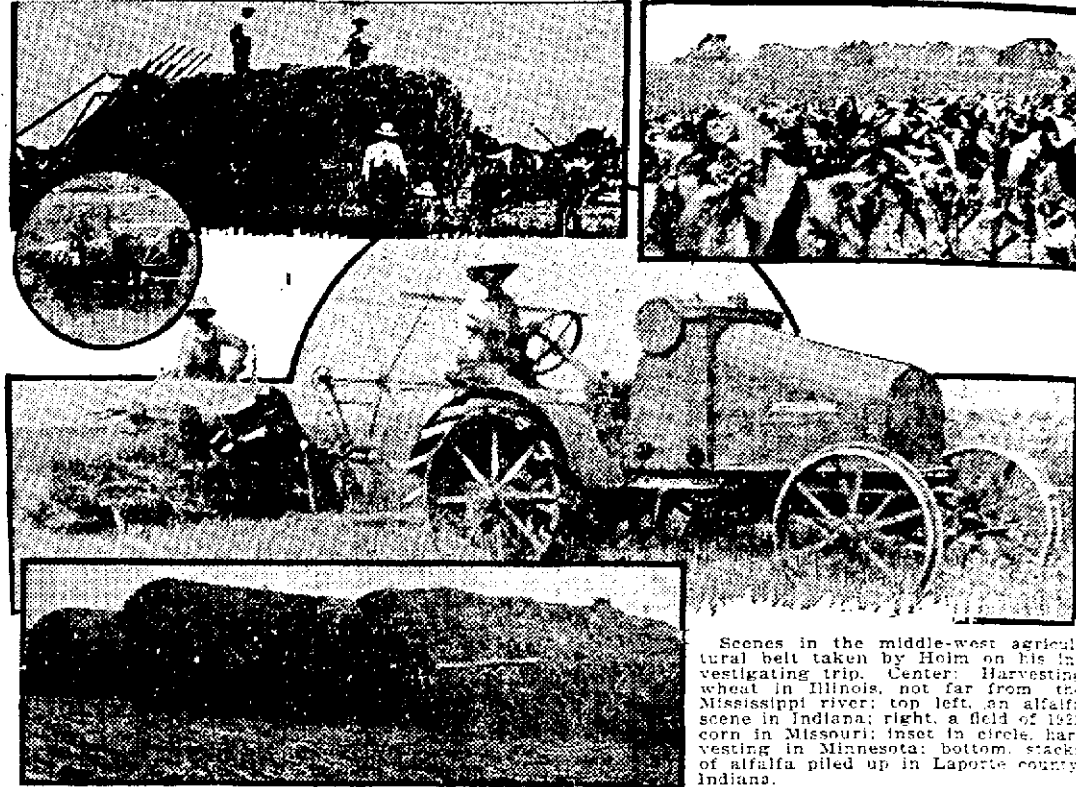

The average farmer is curiously secretive about his financial income. Sometimes it is because he himself doesn't know and hates to admit it. But I talked with many farmers in Missouri, Iowa, Illinois, Kentucky, Indiana and Ohio about their income and about their neighbors' income. "I couldn't make a decent living last year," they would say.

U. S. government reports, based on surveys in 1916, showed the average farm income then to be about \$600 per year, of which \$200 was in cash. This was in the best three agricultural states.

New surveys are being made this year. No report is yet available, but it will show a change for the worse. The farmer may be taking in the same amount of money as before, but it goes only half as far.

Reasons for Change The reasons for the change of feeling by the farmer are varied. No

SCENES WHERE GOOD TIMES ARE RETURNING

Scenes in the middle-west agricultural belt taken by Holm on his investigating trip. Center: Harvesting wheat in Illinois, not far from the Mississippi river; top left, an alfalfa scene in Indiana; right, a field of 1922 corn in Missouri; inset in circle, harvesting in Minnesota; bottom, stacks of alfalfa piled up in Laporte county, Indiana.

LA CROSSE COUNTY PROSPERING

(By W. E. STREITER, La Crosse County Agricultural Agent.)

The financial condition of the farmers in this section of the country has improved considerably during the past nine months. A year ago all farmers were over stocked with cattle, and there was no market for this surplus stock. Cattle was worth less on the big markets than they could be produced for. As most of the farmers had either purchased breeding cattle and hogs at peak or boom prices, and carried them along on high priced feed, it was impossible to dispose of the surplus without a considerable loss.

There were literally thousands of farmers in the grain growing states who wanted our surplus breeding stock, but they had lost their buying power, which made it almost impossible for them to make purchases. Late last fall, however, the farmers of western Minnesota, the Dakotas, Iowa and Nebraska found a way to finance their plans, and since last November nearly 700 head of breeding cattle, chiefly dairy cows, have been shipped out of La Crosse county. From that time on prices have slowly advanced, hogs representing a good margin of profit as feed prices were about normal, with the price of live hogs ranging from 6 to 10 1/2 cents per pound. Growers could see at last at least a chance of breaking nearly even.

Farmers as well as other people did a lot of reckless buying during flush prices. Then when the crash came they were the first to get hit. Now with the cost of machinery, labor, feed, seeds, railroad rates and other items that enter into the cost of farm production considerably reduced, the farmer's outlook upon the future is much brighter.

single thing seems to have caused the change.

Some think recent small price rises will continue—to the benefit of the farmer.

Some expect considerable benefit from recent legislation forced by the farm bloc in congress.

Many believe the growth of co-operative buying and selling enterprises will help much.

The activities of the farm bureau and government agencies in educating the farmer to produce more economically, will help wonderfully, so many believe.

Money is easier to get at the banks, too, which will also be of help.

At any rate the farmer is in the right frame of mind for better things this year.

Frank Fulkerson owns over 400 acres of land in Jersey county, Illinois. He lives on and operates one of his farms. He is a shrewd business man, a keen thinker and strictly up-to-the-minute in farm methods. If there's a way to make more money on the farm Fulkerson goes after it. Yet, he says he lost money last year.

Says Fulkerson: "The farmer is a business man as well as a worker. He must figure a depreciation fund as well as interest on investment. What city business man would be content with 3 or 4 per cent profit each year? But it is impossible for a farmer to make more than 3 or 4 per cent even under ideal conditions. Last year we didn't even make 4 per cent. As a business we lost money."

"The farmer is worse off now than ever before. His morale is gone. He's about busted and doesn't know where he is at, but conditions, I think, are slowly changing for the better."

Lands New Laws Fulkerson attaches considerable importance to the new laws enacted by congress last winter to help agriculture.

Tom Reilly, who owns and runs a general farm in the hills of Clark county, Missouri, put most of the blame of the farmer's plight on the city man.

"The town merchant and manufacturer are still trying to hang on to their big war-time profits and the city worker is trying to keep his war-time wages, while the farmer has taken his cut, and a big one, too."

"We have no kick on a reduction if everybody else gets the same. But for the farmer to get his income sliced off while other classes stay up, is not right. The farmer can't even make his interest in normal times, to say nothing about the present."

In Clark county I learned harvest hands were being offered \$1.50 per day and board. One man of 70 told me he was shocking wheat at 10 per day. The average cash farm income here was put between \$300 and \$400.

Heffelfinger Bros., of Butler, Ind., agreed that they hadn't made anything but a living the past year. They own a couple of hundred acres of land.

"We are hopeful, though," they said. "Things are getting better. Labor is easier around here. More men are willing to work on the farms now."

In Kentucky they are pinning their faith on the activities of the tobacco pool, a co-operative selling arrangement. The burley men formed their pool more than a year ago, and the black-leaf men are organizing now.

Last year, by agreement, the tobacco acreage was kept low. The price rose.

More tobacco will be raised this year, but through an intelligent marketing system the growers hope to keep the price stable. They have an iron-bound agreement among themselves.

"Taxes Too High"

Albert Lang, of Lee county, Iowa, told a neighbor who owned two quarter-sections of land, which he rented at \$1200 each. The taxes on one farm amounted to an even \$1200, and on the other just a little in excess of \$1200, so the owner lost money by merely owning the farms.

"Taxes are too high," said Lang. "They are ruining us. Nobody can break even, now. Those town fellows make us a little bit tired. The farmer worked hard before the war, he worked during the war, and he's hard at work now. That's more than the other fellow can say."

"The city man doesn't appreciate the hard work, the worry, the risk and chance the farmer takes. During the war everybody wanted to help the farmer. They did—a little. When the war was over they dropped him like a hot potato."

Lang told of a man who for three days ran a threshing machine in daylight, then went into the field and shocked wheat by moonlight, until two o'clock in the morning. He did it because he couldn't get help.

A new force has appeared in agricultural America and its strength is felt everywhere. This is the American farm bureau federation and its more visible instrument, the county agent system.

In the county agent, the farmer has an alert, clear-minded young fellow, who can, and does, do him a lot of good. The vast majority of the farmers are glad to receive the benefit of the agent's assistance.

Quite often the county leader is the real leader of the farming community. He generally has a better idea of what the farmer is doing than does the farmer himself.

"The biggest problem before the farmer today," said County Agent C. A. Buechner, of Laporte, Ind., "is the most economic production of crops. The farmer hasn't really begun to learn, yet, how crops can be produced most effectively and cheaply."

System Needed

Said County Agent W. R. Eastment, of Mound City, Ill., located in one of the so-called "poor counties" of the state:

"Farmers have lost money in the past year. The future is still uncertain but it looks better than it did. The salvation of the farmer is to learn what are the best crops for him to grow and how to grow them. The hit-or-miss system, which his father or grandfather followed, does not get him anything."

So far, it looks like a good year for crops. The wheat crop is nearly all harvested and it is good. Reports from states visited and from Kansas, Nebraska and the Dakotas, tell of wheat in abundance.

The price of corn was low last year and the corn belt will have a smaller acreage this year. How the crop will turn out depends on the weather in July and August. Other crops appear to be abundant.

From the appearance of the fields and barnyards, there are still plenty

TO THE FARMERS

This is the seventh appearance of The Tribune's Farm Page.

At the time of starting the Farm Page as a regular weekly feature, we addressed an editorial to the farmers and others interested in the news of our rural communities, in which we set forth the aims and purposes of the page, and asked for the co-operation of farmers and farm agencies in making it a success. We also, at that time, asked for comment and suggestions as to how the page should be conducted and what sort of material it should contain.

We have received splendid co-operation from all with whom we have had dealings since the page was inaugurated, but so far have not heard any criticism, favorable or unfavorable. Remember, it is your page, and we want to handle it in a way that will bring the greatest possible benefit to you.

Let us hear from you. Do you like it? How can we improve it?

of porkers to fill the needs of the nation.

I heard but little complaint about the inability of farmers to obtain bank loans. Money is easier now, they say, and the right kind of man can usually get loans at his home bank at a fair rate of interest, usually seven per cent. The government loan system, they say, has acted as a stimulant to local banks.

So the farmer is pulling up his galluses, spitting on his hands and taking a fresh hold on the plow-handle. There is a better time coming for him, he is sure.

LA CROSSE COUNTY CATTLE IN DEMAND BY OUTSIDE BUYERS

Early last spring R. O. Swanson, county agricultural agent from Howard, S. D., purchased a carload of dairy cattle in La Crosse county.

Mr. Swanson writes to Mr. Streiter that they are well pleased with the service and the cattle he received and that he is considering the matter of coming back for another carload of high grade Jersey and Guernsey cows.

The records of the Wisconsin livestock sanitary board show that 703 head of cattle for dairy or breeding purposes have been shipped out of La Crosse county during the year July, 1921, to July, 1922.

There seems to be a strong demand for good cattle. Quality stock and service gets repeat orders.

SPRAY SPUDS FOR INSURANCE SAYS U. OF W. EXPERT

Spray for insurance. "Not being a prophet, I cannot tell whether there will be potato blight this year or not," says R. E. Vaughan, plant pathologist at the University of Wisconsin. "However, the heavy rains makes the season a favorable one unless it turns off dry and hot."

The potato blight thrives on cool nights, foggy mornings, and showers. Bordeaux mixture is the best spray preventive.

Watch the potato crops on the heavy soils and on the lowlands. The blight first comes as a mildew on the under side of the leaves. "Keep the sprayer on the job," he urges.

SPRAY APPLE TREES

It is now time for the 4th spray for the later varieties of apples, using the same solution as used in previous sprays (1 pound of arsenate of lead, and 1 gallon of commercial lime sulphur to 40 gallons of water). Caution: Do not spray with the thermometer at 53 degrees Fahrenheit. It may cause burning and damage the fruit.

WANT ADS

Classified WANT AD. RATES

Under any classification 15 cents per line for each insertion. No charge for insertion for less than two consecutive insertions.

A MONTHLY rate of \$1.50 per line for those who are standing. Nothing less than three times accepted under this rate.

All orders to discontinue advertisements must be made in writing or by personal call at the office. The Tribune and Leader-Press will not be responsible for telephone cancellations.

The Tribune and Leader-Press will not be responsible for more than the first incorrect insertion of any advertisement ordered for more than one time.

CLASSIFIED ADVERTISEMENTS for the Sunday Tribune and Leader-Press will be accepted for classification up to 8 o'clock Saturday night.

RAILROAD MECHANICS AND HELPERS

WANTED BY THE

CHICAGO & NORTH WESTERN RAILWAY CO.

On account of the action of a number of our shop and engine house employees, who left the service in defiance of the United States Labor Board and are now on a strike, the Chicago & North Western Ry. is in need of the following:

Machinists and helpers.
Boilermakers and helpers.
Blacksmiths and helpers.
Car repairers and helpers.
Sheet metal workers and helpers.
Pipe fitters and helpers.
Car inspectors.

Wages and working conditions prescribed by the United States Labor Board, effective July 1, 1922, will be applied.

An excellent opportunity for young and energetic men to engage in railroad work.

Apply at once to
129 N. CLINTON ST., CHICAGO, ILL.

or at nearest shop or car repairing station.

DAILY MARKETS

MARKET REBOUNDS

Stocks Recover Losses Recorded Under Pressure of Early Trading.
NEW YORK.—After the first burst of strength profit-taking set in on the stock exchange Monday and market reaction was scored by some of the leaders. The heaviest pressure was directed against oil and the stocks, which were recovered most of its loss in later dealings. Towards noon there was a heavy accumulation of buy orders and the whole market moved upward under leadership of rails and equipments. Louisville and Nashville and gain of the points featured at rails. Atlantic Coast line and Chesapeake and Ohio following with advance. The market closed with a gain of 14 points on the New York stock exchange. Advances ranging from large fractions to 10 points, with a new high for the year, was the individual feature.

Substantial gains were also recorded by Studebaker, Mexican Petroleum, American Tobacco and LaCrosse Gas. Point, which dropped 1 1/2 points on the day, recovered most of its loss in later dealings. The market closed with a gain of 14 points on the New York stock exchange. Advances ranging from large fractions to 10 points, with a new high for the year, was the individual feature.

On the 31st day of July, A. D. 1922, on reading the foregoing petition, it is ordered by the Court that a hearing be had upon the same on the 31st day of August, A. D. 1922, before said court at La Crosse, in said District, at 10 o'clock in the forenoon, and that notice thereof be published in the Tribune and Leader-Press, a newspaper printed in said District, and that all creditors and other persons in interest may appear at the same time and place and show cause, if any they have, why the prayer of said petition should not be granted.

And it is further ordered by the Court, that the Clerk shall send by mail to all known creditors copies of said petition and this order addressed to them at their places of residence as stated.

Witness, the Honorable Claude Z. Luse, Judge of said Court, and the seal thereof, at La Crosse in said District, on the 31st day of July, A. D. 1922.

(SEAL OF THE COURT)
WM. H. COMERFORD, Clerk.
J. B. PETERSON, Deputy.

SUTHERLAND & GILBERTSON,
Attorneys for Bankrupt.

NOTICE TO INVESTORS
The Board of Directors of the District No. 1, of the Towns of Banzer and Leon, amounting to \$9,000, dated July 1, 1922, and interest thereon, payable annually, are offered for sale. These bonds mature in fourteen years and are payable in installments of \$500 each, beginning with 1922 and ending with 1936, and consist of fifteen bonds of the face value of \$500 each. The assets of the district is approximately \$250,000, consisting of high class agricultural lands in La Crosse and Monroe counties. The district has no other indebtedness. The bonds are to be expended in the construction of a school building and are approved as to legality.

Witness, the Honorable Claude Z. Luse, Judge of said Court, and the seal thereof, at La Crosse in said District, on the 31st day of July, A. D. 1922.

WINTER, MORRIS, ESCH & HOLMES,
Attorneys for Plaintiff.

NOTICE TO PRINTERS
Notice is hereby given that the printer, committee of the La Crosse County Board of Supervisors will meet at my office Friday, August 4th, 1922, at ten o'clock in the forenoon to receive and consider bids for the publishing of the County Board proceedings, County printing and ruling and book binding for the ensuing year.

File your proposals in my office not later than the hour and date above mentioned. All samples are on file in my office. The committee reserves the right to reject any and all bids.

Dated July 31, 1922.
HUBERT D. STAATS,
County Clerk.

M'HENRY APPEALS FOR SUPPORT ON PROHIBITION ISSUE

Seeks Nomination in Primaries on Platform Favoring Return of Wine and Beer

TEMPERANCE NOT PROHIBITION WILL SOLVE LIQUOR QUESTION

Absolute Prohibition too Far Ahead of the Times, He Says

FORTAGE, Wis.—Prohibition is a vital issue in the present political campaign, the issue on which he will appeal for election, Mayor A. C. McHenry of Oshkosh, candidate for nomination as republican candidate for governor, declared in a campaign speech here Saturday night.

Mayor McHenry said that Attorney General William J. Morgan had announced himself as "an honest-to-goodness bone dry," that Governor J. J. Blaine had straddled the issue, and that he was in the republican primaries favoring the manufacture of beer and wine under strict government regulation without the saloon.

"Had Governor Blaine told the people that he was for modifications of the Volstead act, permitting the manufacture and sale of beer, I would not have entered this race for governor," Mayor McHenry told his audience.

"Governor Blaine prides himself on the Sevenson law, flitting with the wets and praying that the dries will vote for him," Mayor McHenry declared. "He wants the people to think that his only grievance is with Mr. Hutton, superintendent of the anti-saloon league, and wants the wets to accept his grievance as a token of good will toward them. It is my opinion," he said, "that the people of Wisconsin are not interested in Governor Blaine's quarrel with his previous good friend, Superintendent Hutton. We know where Mr. Morgan stands—he has told the people of Wisconsin that he is an honest-to-goodness bone dry."

"Mr. Morgan says that 50 governors could not give the people one glass of beer, but the election of one governor who is out and out against this prohibition nonsense and immorality, will punish to the congress the status of Wisconsin on this question."

"I favor the Quebec system of temperance, which permits the sale of malt brews in taverns, hotels, restaurants, clubs, dining cars, steamboats, and by the bottle in grocery stores. I believe distilled liquors should be sold direct to the people, without a doctor's prescription, by the federal government through dispensaries."

"Have one law for the nation in this matter, uniform in every state in the union, that appeals to the American sense of decency and self-respect, individual responsibility and social betterment and you will have a nation of law-abiding and self-respecting people, with every good and fair minded citizen a law enforcement officer."

"Fertilize the drunkard and educate the masses in the ways of temperance."

MARILYNN MILLER AND JACK PICKFORD MARRIED ON SUNDAY

LOS ANGELES.—Marilynn Miller, famous stage star, became the bride of Jack Pickford, film favorite, at the home of the groom's sister, Mary Pickford, and brother-in-law, Douglas Fairbanks, at Beverly Hills, a suburb, Sunday. They are receiving telegrams of congratulations of friends from all parts of the world. The couple plan to leave Monday for their honeymoon, but refuse to say where it will be passed.

BADGER CANDIDATES CARRY CAMPAIGN TO ALL PARTS OF STATE DURING COMING WEEK

MADISON, Wis.—Political guns will be let loose during this week from southern Wisconsin through the central part of the state to the most northern counties, itineraries mapped out by candidates show.

This week opens the final month of the campaign with every candidate reaching the top of his speaking tour. New speakers are being added to the large field as the battle for office heads toward the climax. Despite the numerous addresses scheduled in the same section all candidates are reporting large crowds who are evincing an intense interest in the issues of the opposing factions.

Ganfield

Dr. W. A. Ganfield, candidate for the United States senate on the independent progressive republican ticket, starts his week at Superior and after tour in the northwest counties heads down through the north central sections later in the week. Senator Robert M. La Follette, his opponent, will rest until Thursday when he re-opens his campaign in the south, covering the most populous district of Wisconsin. He will continue over into the next week speaking Wednesday, August 9, at Milwaukee.

Women to Speak

The feature of the week will be the entrance into the field of Mrs. Robert M. La Follette and Mrs. John J. Blaine. They begin their speaking campaign at Viola and will deliver from two to five speeches a day. They plan to be out until the close of the campaign. Mrs. La Follette will talk on national issues. Mrs. Blaine will talk on state issues. The schedule of Mrs. La Follette and Mrs. Blaine is as follows:

La Follette

Senator La Follette returns to Madison for two or three days but takes the stump again on Thursday with the following schedule:

Thursday, August 3, Beloit, Janesville; Friday, Delavan and Lake Geneva; Saturday, Kenosha, Racine; Monday, Waukesha, Oconomowoc; Tuesday, Port Arkinson, Watertown; Wednesday, Whitewater, Milwaukee.

Morgan

Attorney General William J. Morgan will attend to the duties of his office for the first three days of this week, after four weeks of intensive campaigning. He opens up again Wednesday night at Browntown, Green Bay county, and spends the remainder of the week in the south and southwest counties. His opponent, Governor J. J. Blaine will carry his campaign through the entire week without interruption addressing 25 meetings in the north.

Following is the itinerary of Attorney General Morgan, releases today: Thursday at Browntown, South Wayne, Shullsburg, Cuba City and Plattville. Friday at tour of Grant county, Saturday, Waukesha, Viola, Westby and Viroqua. The next week will be opened with a night meeting at Tomah on Monday, followed on Tuesday with talks at Bangor, West Salem and La Crosse that night. On Wednesday he speaks at Galesville, Arcadia, Independence, Whitehall and Augusta, going on Thursday to Humbird, Nellisville, Merrilan and Black River Falls.

Mr. Morgan speaks Friday, August 11, at Stoughton, Edgerton, Evansville and Janesville, going on Saturday to Milton Junction, Whitewater, Elkhorn and Beloit, and Sunday

to Delavan where he speaks at a night meeting.

Blaine

Governor J. J. Blaine has the following schedule: Monday, July 31st, Merrill, Tomahawk, Rhinelander; Tuesday, Eagle River, Crandon, Antigo; Wednesday, Birnamwood, Wittenberg, Tigerton, Caroline, Shawano; Thursday, Clintonville, New London, Manawa, Meyauwega, Fremont; Friday, Amherst, Rosholt, St. Point; Saturday, Junction City, Auburndale, Marshfield, Neillsville. Sunday, Wisconsin Rapids.

Baker

John F. Baker, candidate for attorney general, will carry his campaign from northern Wisconsin down through the central counties, while Herman Ekern, his opponent, starts in the south and tours up through the central counties.

The itinerary of Mr. Baker starts Monday at Junction City, Auburndale, Vesper, Port Edwards, Neokosa, with an address in Wisconsin Rapids that evening. Tuesday he speaks at Monroe Center, Arkdale, Friendship, Adams, Necedah, and New Lisbon; Wednesday at Mauston, Elroy and Camp Douglas; Thursday at Tomah, Wilton, Norwalk, Summit and Sparta; Friday at Bangor, West Salem, Holmen, Onalaska and La Crosse; Saturday at Trempealeau, Galesville, Elittrick, Arcadia, Independence, Blair and Whitehall.

Ekern-Zimmerman

Herman Ekern, candidate for attorney general, and Fred Zimmerman, candidate for secretary of state will address meetings commencing Tuesday at Milwaukee. Thursday they will talk at Thiensville, Cedarburg, Grafton, Saukville, and Port Washington; Friday at Cedar Grove, Random Lake, Adell, Waldo, Plymouth, Sheboygan Falls and Sheboygan; Saturday at Kile, New Holstein, Chilton, Valders and Manitowoc.

Lieutenant Governor Comings and Solomon Levitan, candidate for state treasurer, have the following schedule:

Sunday, July 30, New Richmond; Monday, Clear Lake, Avery, Dresser Junction; Tuesday, Turtle Lake, Canton, Brill, Barron; Wednesday, Ridgeland, Wheeler, Boyceville, Kanpp, Menominee; Thursday, Eau Claire county; Friday, Chippewa county; Saturday, Chippewa county; Sunday, Rusk.

Walter D. Corrigan, Milwaukee, one of the best known progressives in the state, is speaking in Waushara

county; Saturday, Chippewa county; Sunday, Rusk.

Following is his schedule for the week:

Monday, July 31st, Iola, Scandia, Ogdensburg, Manawa, Waupaca; Tuesday, August 1st, Wild Rose,

Hancock, Coloma, Plainfield; Wednesday, August 2nd, Bancroft, Almond, Amherst, Plover, Stevens Point; Thursday, August 3rd, Rudolph, Vesper, Nakoska, Port Edwards,

Wisconsin Rapids; Friday, August 4th, Weyauwega, Poyssippi, Pine River, Auroraville, Red Granite; Saturday, August 5th, Westfield, Monticello, Princeton, Green Lake, Berlin.
